

CASH.

Oh, the wind from the north shakes the leaves from the trees; There's a chill in the air and it's going to freeze. What a comfort today in the thought of the old Estate Oak that I had when I feared not the cold; Now the loss of an Estate is a serious joke. On the man who is flush or the man who is broke; But that grief isn't half as distressful to bear As the letters from men having bargains to spare. Every man in the lot is supplied with the best. But I honestly think Estate lead all the rest. As the dealers are sad at my loss it is quite A task not to cry when I read what they write. They are very kind men to the sad and bereft. But they all sell for cash, and that's where I get left.

THANKSGIVING AT INDIAN SCHOOL.

Nearly 300 Pupils Enjoyed a Sumptuous Dinner-Improvements in the Indian Service-Growth of the Santa Fe Institution.

The dining room of the United States Indian industrial school presented a very attractive appearance yesterday as 272 neatly dressed pupils filed in and took their places at the 36 tables loaded with all the substantial of the season. It took 300 pounds of turkey and duck, 71 mince pies, 12 gallons of cranberry jelly, 20 barrels of apples, 72 cans corn, 240 pounds of potatoes, 140 loaves of bread, 20 pounds butter and 27 chocolate cakes to furnish Uncle Sam's wards with what Superintendent Viets considered a square Thanksgiving dinner.

He is a careful, as well as a generous provider, however, and no waste or extravagance followed. The children were waited upon by the teachers and employees of the school, who declared unanimously that they never saw anywhere better behaved or more appreciative children.

Much credit is due the industrial force of the school, who, for some days previous, worked faithfully to make the occasion a success. Each face in this corps, from that of the alert and energetic matron, Mrs. M. R. Hall, who was chief engineer of the affair, down to the serious, patient one of Severiano Taffoy, the baker, showed a smiling consciousness of duty well done.

No one who is at all conversant with the inside affairs of Indian schools and who has watched their development for a term of years, could look upon the Santa Fe school dining room yesterday without a thrill of pride and joy because of the vast improvements in the Indian service which have taken place within 15 years. The schools of today are marked contrasts to those of that time. The personnel of the service has especially been improved and, with the employment of refined, earnest, cultured people, has followed a corresponding improvement in equipment, dress, table service, etc., until now the person who is in the care of Uncle Sam, either as a ward or a civil service employee, needs not the pity of any one. The children yesterday had a good home and a good dinner to be thankful for. The older ones were thankful for that fine growth of a Christian civilization which made the home and the dinner possible.

The present management is evidently running the school for the benefit of the Indians, and they are rapidly finding it out and responding in large numbers. The school already has a far larger attendance than ever before, and had it not been for precautionary measures taken because of the prevalence of smallpox in some of the most progressive pueblos, the school would ere this have reached the limit of its capacity. So soon as it is safe to do so, Superintendent Viets proposes to accept the 28 pupils needed to reach the 300 limit and then urge the Indian office for that extension which the needs of the case demand. Every progressive citizen of Santa Fe and of the territory of New Mexico who stops to think over the matter, can readily see what a large factor in the development of this territory the educational institutions are.

Those who have cast their lot with New Mexico, confident of her future, have an additional cause for thankfulness that there is at the head of this school a man clear eyed enough to see the possibilities of growth on this line and clear headed and energetic enough to secure that growth. If he is given the support that he merits, both at home and in Washington, there is no reason why the Santa Fe Indian Industrial school may not in the near future approach in dignity, influence, equipment and achievement its great prototype, the famous Indian training school at Carlisle.

THE SIMPLEST CURE FOR INDIGESTION

As Well As the Safest and Cheapest.

The new medical discovery, Stuart's Dyspepsia Tablets, digest the food instead of making the worn out stomach do all the work, give it a much needed rest, and secure of dyspepsia is the natural result.

You get nourishment and rest at the same time because these Tablets will thoroughly digest all wholesome food taken into the stomach whether the stomach works or not. A cure is certain to result because the digestive organs are given a chance to rest and recover their natural vigor and tone. The Tablets are then no longer required.

To show the manner in which the remedy acts on different people and how quickly and effectively it cures stomach troubles, we present a few recent cases.

Mr. J. O. Wondy, of Peoria, Ill., writes: I was unable to eat but the plainest food and even that often distressed me, but since using one box of Stuart's Dyspepsia Tablets I can eat anything and everything I want.

Mrs. Samuel Kepple, of Clifty, Pa., writes: I have been entirely relieved of my stomach troubles by your Tablets. I suffered three years with sour stomach and gas at night. I am thankful for them.

Mrs. A. E. Bowman, Barnard, Vt., writes: I think Stuart's Dyspepsia Tablets are the best thing for dyspepsia I ever took. I will recommend them to anyone troubled as bad as I was.

Stuart's Dyspepsia Tablets will not disappoint because they cure Dyspepsia surely and lastingly by causing the food to be properly assimilated and cure constipation by producing the proper quantity of bile. Sold by all druggists at 50 cents per package. Send for free book on stomach diseases to Stuart Co., Marshall, Mich.
